

2014 CROSSTOUR

IT'S ALL THIS. AND IT'S ALL THAT.

Want both sides of the equation? The Crosstour offers luxury and versatility in one striking package. Get there powerfully with a 278 horsepower,¹ 3.5-litre, 6-cylinder i-VTEC[®] engine. Get there confidently with Realtime 4WD[®] that offers added traction and response. The Crosstour boasts an impressive list of standard features, like leather-trimmed seating surfaces and premium soft touch materials, plus the latest tech features like Hands FreeLink™-bilingual Bluetooth,^{6,5} HondaLink™^{5,11,12} LaneWatch™ blind spot display,⁹ Forward Collision Warning⁴ and Lane Departure Warning⁸ systems. Should you have to choose between utility and luxury? Between refined and rugged? We don't think so.

STYLE THAT KNOWS NO BOUNDS.

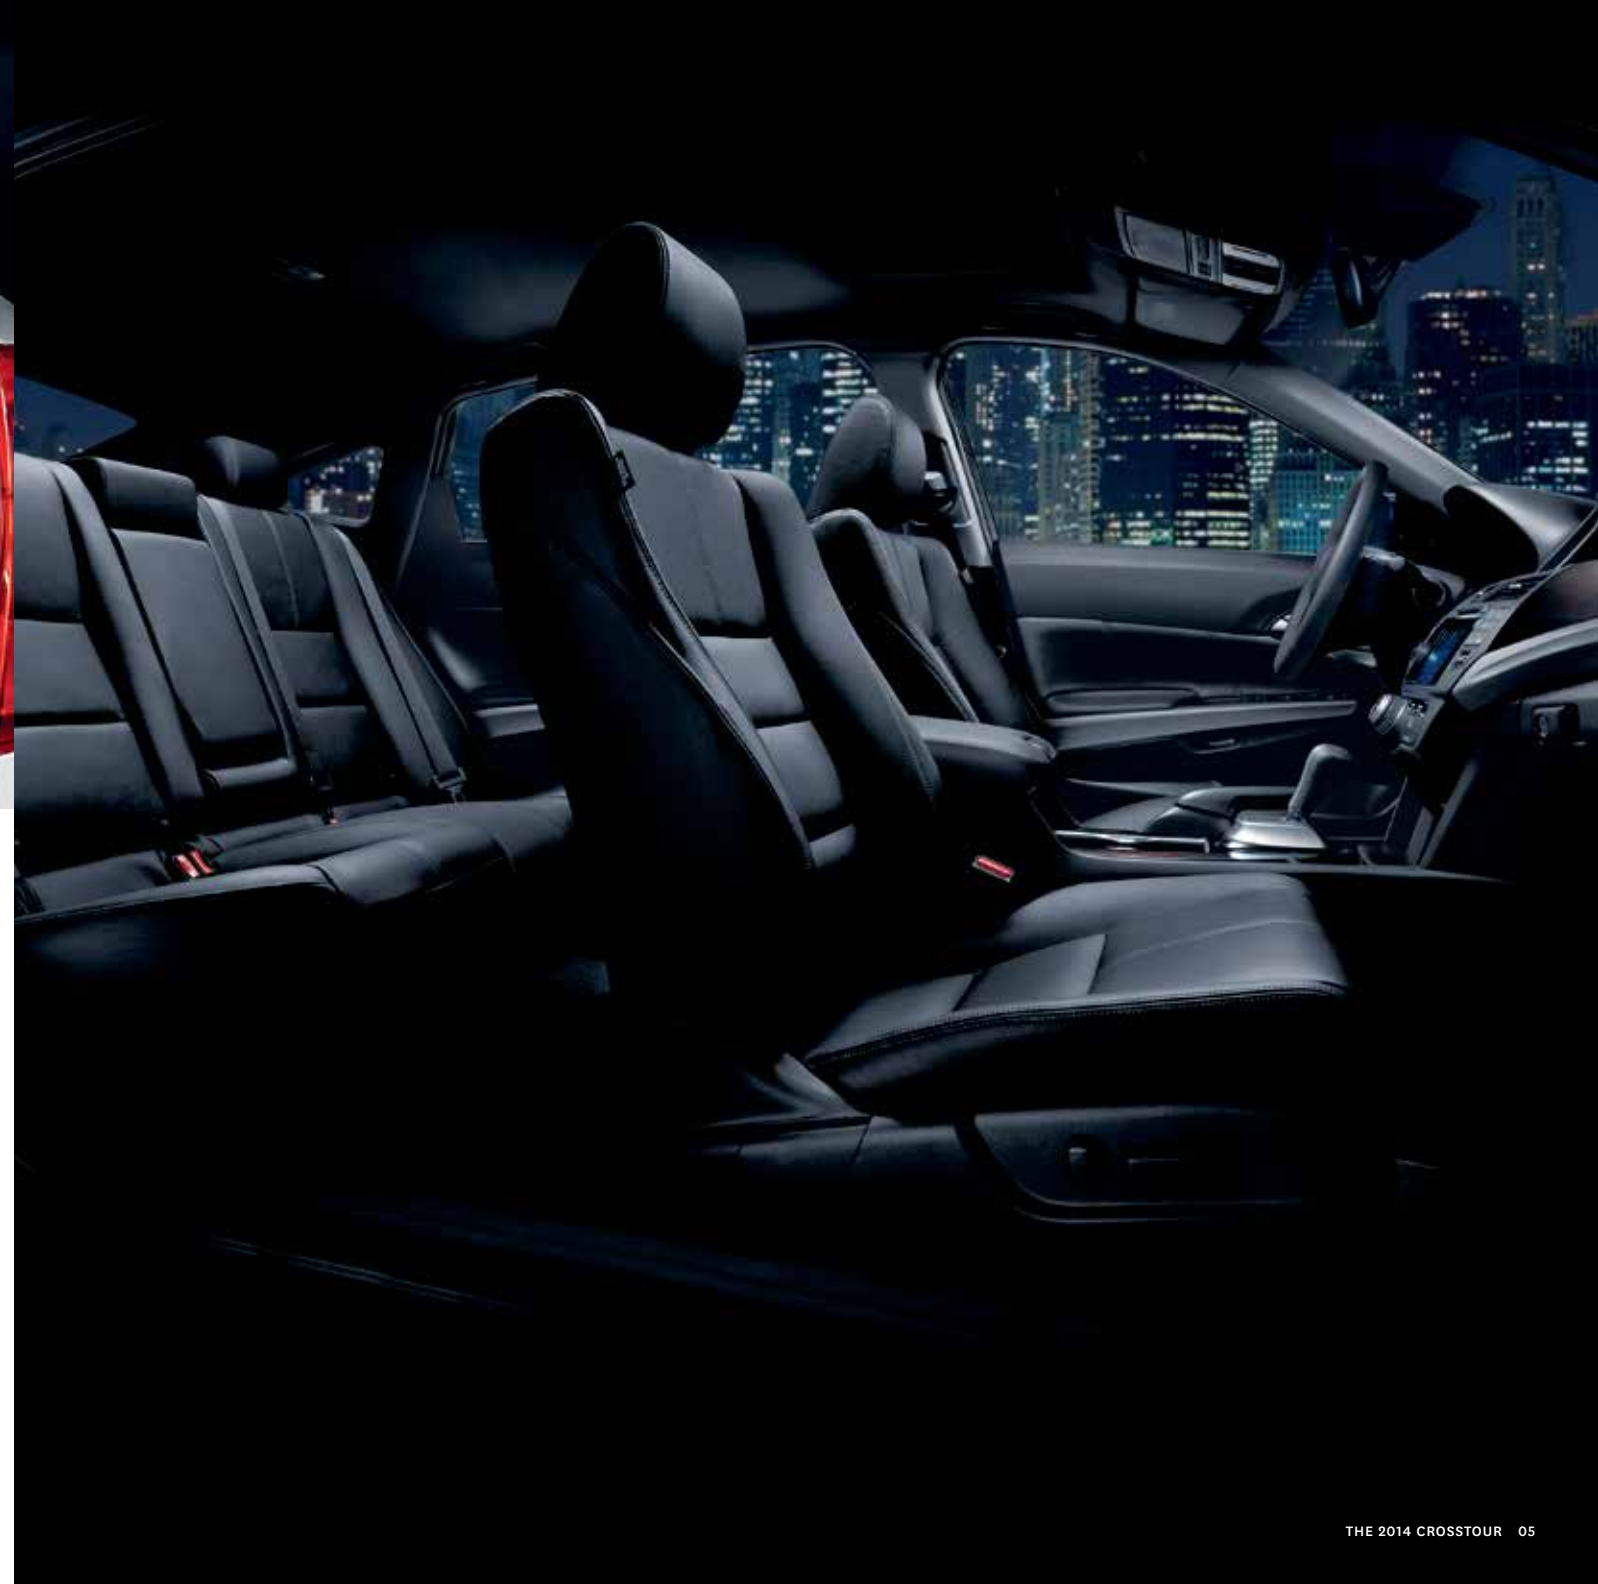

Whether you're driving the backroads to the cottage or headed out for a night in the city, the Crosstour fits the part. A striking front bumper and grille balance ruggedness with refinement. The vehicle's aggressive stance is complemented by lower body cladding with painted door garnish, dual exhaust with chrome finishers, front and rear bumper underguards, fog lights and rear privacy-tinted glass. More standard features like power moonroof, chrome door handles and 18-inch aluminum-alloy wheels complete this striking statement piece, making the Crosstour a perfect blend of form and function.

TAKE THE FULLY-LOADED OPTION.

Luxury has standards. For starters, enter your sanctuary using the standard smart entry with pushbutton start. Sink into the 10-way power adjustable driver's seat, including power lumbar support, also standard. Then there's the heated front passenger's seat with 4-way power adjustment, leather-wrapped steering wheel and shift knob, plus leather-trimmed seats and woodgrain finish on the instrument panel and centre console. All of these premium features come standard, bolstering the Crosstour's well-crafted, upscale demeanour.

To get a sense of the Crosstour's versatile nature, just lift the tailgate. With seats in their upright position, the rear cargo area has more than enough space for your golf gear or groceries. But with the 60/40 split rear seats folded flat, you get an impressive 1,453 litres of storage capacity. For even more handy storage, lift the floor panel where you'll find a removable, water-resistant under floor storage box. It's perfect for keeping your stuff out of sight. And finally, in the spirit of versatility, reversible floor panels provide more options. There's luxury carpet on one side, but flip them over and you'll find wipe-clean all-weather rubber on the other.

ALL-YEAR DRIVE.

The Crosstour manages to be powerful and fuel efficient at the same time. A 3.5-litre, SOHC i-VTEC® V6 engine puts out 278 horsepower,¹ using a 6-speed automatic transmission with Grade Logic Control and steering wheel-mounted paddle shifters for a more spirited drive. The engine also features electric variable power-assisted rack-and-pinion steering (EPS) for even better driving stability.

Power can still be efficient, with advanced Variable Cylinder Management® (VCM®). When you want raw power, the system engages all six cylinders for a truly invigorating drive. For more moderate highway or country road driving, the engine can operate with three cylinders in a wider range of situations to maximize fuel efficiency. It's the Crosstour at its versatile best: serious horsepower only when it's needed and greater fuel efficiency overall.

The Crosstour's Real Time 4WD® system helps it go where you point it, in almost all weather conditions. Get help with traction in low-grip driving conditions, along with a faster, more intuitive initial response when a loss of traction is detected. For added control, the Crosstour is equipped with an independent double-wishbone front and multi-link rear suspension for a refined, smoother ride.

NOT JUST FOR TECHIES.

The Crosstour is a marvel of technology, loaded with innovative standard features like the 8" i-MID LED backlit display, which allows you to receive text messages¹⁰ and emails.¹⁰ It also provides important vehicle data like fuel efficiency and trip range, as well as audio and phone information. The HandsFreeLink™-bilingual Bluetooth® wireless mobile phone interface⁵ allows you to keep your hands on the wheel and eyes on the road. The available Honda Satellite-Linked Navigation System™⁷ keeps you on the right path with 3D map display and FM Traffic feature, which offers continuously updated traffic information with zero subscription fees.²²

HondaLink™

HondaLink^{5,11,12} featuring Aha™^{12,16} by HARMAN lets you put your phone away, yet remain in touch with the outside world. It connects you to cloud-based media like news, music and entertainment. All controlled through voice recognition, your audio touch screen or conveniently placed steering wheel-mounted audio controls.

360-WATT, 7 SPEAKER AUDIO SYSTEM

Your ears will thank you for this AM/FM/CD/MP3/Windows Media® Premium audio system with 7 speakers including subwoofer. In addition to SiriusXM,^{TM13} MP3/auxiliary and USB device connector, you can also take advantage of Bluetooth® Streaming Audio⁵ to play songs directly from your compatible Bluetooth device.

MULTI-ANGLE REARVIEW CAMERA²

Back up with confidence. This standard feature lets you choose from three different views that are displayed on the i-MID screen or available navigation display, and use the guidelines to know when you're getting too close for comfort.

HANDSFREELINK™ BLUETOOTH®

The standard HandsFreeLink-bilingual Bluetooth⁵ connects with your compatible smartphone so you can make or answer calls without taking your hands off the wheel.

NAVIGATION

The available Honda Satellite-Linked Navigation System™⁷ with trilingual Voice Recognition,²⁴ 3D map display and FM Traffic²² gets you where you need to go. Turn-by-turn directions are displayed on the colour 8" i-MID display and spoken over the audio system.

TEXT MESSAGING

Receive text messages¹⁰ from your compatible smartphone, with i-MID or the available navigation screen notifying you of a new text. From there, you can choose to have the message read aloud, select from six preset replies, or call the sender.

HAVE EYES IN THE FRONT, BACK AND SIDE.

To help keep your eyes pointed forward, the Crosstour comes standard with several advanced driver-assist features like LaneWatch™ blind spot display,⁹ Forward Collision Warning (FCW) system⁴ and Lane Departure Warning (LDW) system⁸ to help you avoid other vehicles on the road. There's also a multi-angle rearview camera² for a better view of the surroundings while backing up.

LaneWatch™ BLIND SPOT DISPLAY

This feature uses a camera on the passenger's side mirror designed to greatly reduce your blind spot on that side.⁹ Signal right and live video displays on your dashboard screen, revealing nearly four times more area than the mirror alone.

FORWARD COLLISION WARNING (FCW) SYSTEM

The Forward Collision Warning⁴ system uses an onboard camera designed to detect the presence of vehicles in front of you and issues alerts if you're approaching with too much speed.

LANE DEPARTURE WARNING (LDW) SYSTEM

Using a camera behind the rearview mirror, the Lane Departure Warning⁸ system is designed to monitor vehicle lane position and alert you when you drift into a new lane without signaling.

SOLID ON SAFETY.

Honda is committed to providing one of the highest levels of standard safety features to help ensure occupant safety and protection. And through real-world research, Honda is focused on developing solutions designed to enhance the safety of occupants in other vehicles and even pedestrians – an innovative idea that is quickly becoming a reality.

ACE BODY STRUCTURE

The Advanced Compatibility Engineering™ (ACE) body structure is engineered to help disperse frontal impact energy to increase occupant protection. The ACE frame design also allows for collision compatibility between vehicles of different weights and sizes.

VEHICLE STABILITY ASSIST (VSA®) WITH TRACTION CONTROL

Vehicle Stability Assist² with Traction Control senses and helps to correct oversteer and understeer scenarios to enhance handling and cornering stability. It also helps to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

PEDESTRIAN SAFETY

Innovative pedestrian safety features include energy-absorbing hood and front fenders and breakaway wiper pivots.

CONTROLLED BRAKING

To help with safe stopping, the 4-wheel Anti-lock Braking System² (ABS) is designed to help you maintain control under hard braking conditions, while Electronic Brake-force Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. Brake Assist further helps to improve braking performance by applying full brake pressure when a panic stop is detected.

TIRE PRESSURE MONITORING SYSTEM (TPMS)

For enhanced safety and fuel efficiency, the Tire Pressure Monitoring System³ continually checks the air pressure in each tire. If pressure drops in any one tire, the driver receives a dashboard alert.

ACTIVE FRONT SEAT HEAD RESTRAINTS

Active front seat head restraints are designed to help lessen the potential for neck injuries during rear-end collisions by reducing the space between the occupant's head and the seat head restraint.

SIX STANDARD AIRBAGS

The cabin of the Crosstour is lined with six standard airbags, including side curtain airbags. The passenger-side Occupant Position Detection System (OPDS) airbag is engineered not to deploy if it detects a smaller-sized or out-of-position passenger.

CHILD SAFETY

The Crosstour features childproof rear door locks, as well as three rear seat Lower Anchors and Tethers for Children (LATCH) for secure child-seat restraint.

ACCESSORIES

PACKAGES AND KITS

CROSSTOUR PROTECTION PACKAGE

- > All-season floor mats
- > Cargo tray
- > Rear splash guards

CROSSTOUR TOWING PACKAGE 1 7/8"

- > Trailer hitch
- > Trailer hitch harness
- > Trailer hitch ball, 1 7/8"

CROSSTOUR TOWING PACKAGE 2"

- > Trailer hitch
- > Trailer hitch harness
- > Trailer hitch ball, 2"

CROSSTOUR REMOTE STARTER PACKAGE

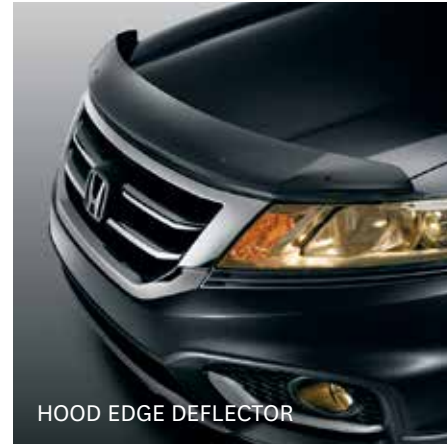

- > Remote engine starter
- > Remote engine starter attachment

CARGO COVER KIT

Accessories listed in the packages may also be added individually to your Crosstour.

DOOR VISOR

HOOD EDGE DEFLECTOR

ROOF RACK, SHORT ROOF BOX

ROOF RACK SKI ATTACHMENT

CARGO NET, ADVANCE

CARGO TRAY

BODY SIDE MOULDING

REAR SPLASH GUARDS

DOOR SILL TRIM ILLUMINATED

REAR BUMPER APPLIQUÉ

TOWING PACKAGE

REAR BACK UP SENSORS

OTHER ACCESSORIES AVAILABLE

- > Ashtray - cup holder
- > Door edge film
- > Door sill trim
- > Engine block heater
- > Interior illumination
- > Moonroof visor
- > Rear bumper protector
- > Rear seat cover
- > Remote engine starter FOB
- > Roof rack
- > Roof rack snowboard attachment
- > Roof rack bicycle attachment
- > Roof rack, mid-size roof box
- > Soft cargo organizer
- > Trunk edge and bumper protector
- > Wheel locks
- > 18" alloy wheel - super bright chrome

THE POWER OF DREAMS, IN ALL THEIR FORMS.

At Honda, we're committed to being a leader in innovative thinking. It's part of everything we do, from the design of our vehicles to the way we work. We have a proud tradition of turning ideas into products and initiatives that help move and improve people's lives in every conceivable way. Today, our innovation manifests itself in many forms: our revolutionary Earth Dreams™ technology, the race-inspired performance of our motorcycles and automobiles, the mobility-assisting robot ASIMO, the high-flying HondaJet and the first full line of fuel-efficient, low-emission, 4-stroke outboard motors. We continually strive to do things others think can't be done, because true innovation comes from daring to dream.

Beyond dreaming up new products, Honda believes we have a responsibility to do everything we can to help preserve our planet. This belief is why we make every effort to ensure preservation of the environment in all of our company's activities. It's why our head office in Markham, Ontario was designed and built to be LEED® (Leadership in Energy and Environmental Design) Gold Certified. It's why our Alliston, Ontario plant is ISO 14001 certified. And it's why Honda, along with our associates and families, has helped plant more than 76,000 trees in Canada over the last 7 years.

As we move forward, we will continue to honour our responsibility and tradition of turning innovative ideas into products that help make our world a better place. That's what we do. That's The Power Of Dreams.

WE'RE HERE. At Honda, assistance and support are always available. The team of trained technicians at your Honda dealership will help keep your vehicle in terrific shape. If you need more information or assistance relating to your warranty, call us at 1-888-9-HONDA-9. For all of the latest Honda information, including product specifications, pricing, photos and more, visit honda.ca. It has everything you need to “design” your Honda and personalize it with items from a list of quality accessories.

WE'RE READY TO HELP. When you purchase a new Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you, or any authorized driver, 24 hours a day, 7 days a week, anywhere in Canada or the continental United States. Coverage is for 3 years over an unlimited distance and includes a 24-hour toll-free Honda Plus Roadside Assistance number, mechanical breakdown towing, emergency roadside service and many other helpful features. Ask your dealer for more information.

HONDA PLUS EXTENDED WARRANTY. Experience added protection with Honda Plus coverage that is behind you for the road ahead. With available coverage options of up to 8 years/200,000 km, you can choose the one that best suits your needs. With a plan this wide-ranging, the only thing that's uncertain is where it will take you.

HONDA FINANCIAL SERVICES. Whether you buy or lease a Honda, Honda Financial Services can assist you with the process. Ask your dealer which lease or purchase plan best suits your needs.

NEW HONDA VEHICLE WARRANTY. The Honda warranty protection makes Power Train components a minor concern with the Honda 5-year/100,000-km No Nonsense Warranty. In addition to the Honda 5-year/100,000-km No Nonsense Warranty, you and your new Honda are protected by a Honda 3-year/60,000-km Distributor's Warranty as well as an additional series of warranties for such items as emission controls, body corrosion and more.

GENUINE HONDA ACCESSORIES give you the opportunity to fine-tune your new Honda just how you like it. Whether you want to turn up the style, the versatility or the exclusivity, every accessory is designed and built to adhere to the strictest Honda standards. See your dealer for full details.

GENUINE HONDA REPLACEMENT PARTS are made to the same exacting standards as original Honda components and are guaranteed by the Genuine Honda Parts Warranty. Using Genuine Honda Parts will help to maintain the quality, reliability and performance of your vehicle.

Always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in a rear seat. Honda reminds you to properly secure all items stored in the cargo area. Before carrying any cargo, be sure to consult the owner's manual for load limits and loading guidelines. ¹Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures. ²Does not replace the driver's responsibility to exercise due care while driving. ³For optimal tire wear and performance, tire pressure should be checked regularly with a gauge. Do not rely solely on the monitor system. ⁴Forward Collision Warning (FCW) cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed and other factors. System operation affected by extreme interior heat. FCW does not include a braking function. Driver remains responsible for safely operating vehicle and avoiding collisions. ⁵Only compatible with certain devices. ⁶HomeLink[®] can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.). Additional control devices not provided by Honda may be required. ⁷Map Database of the Honda Satellite-Linked Navigation System covers major metropolitan areas in southern Canada and the 48 contiguous U.S. states. For a list of current detailed coverage areas, refer to the Honda web site, www.honda.ca. ⁸Lane Departure Warning (LDW) only alerts drivers when lane drift is detected without a turn signal in use. LDW may not detect all lane markings or lane departures; accuracy will vary based on weather, speed and road condition. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions. ⁹Display accuracy will vary based on weather, size of object and speed, and the display may not show all relevant traffic. The display is not a substitute for your own direct visual assessment of traffic conditions before changing lanes. ¹⁰Text message and e-mail functions are only compatible with certain devices. Only use these functions when conditions allow you to do so safely. ¹¹Standard data rates may apply. ¹²Launch smartphone applications only when the vehicle is safely parked. ¹³Includes a no-charge trial of 3 months, beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous U.S. states. See terms and conditions at www.siriusxm.ca. ¹⁴Based on 2014 EnerGuide Fuel Consumption Guide ratings published by Natural Resources Canada. Transport Canada approved test methods used. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. ¹⁵Compatible smartphone required. All Aha platform feeds are audible, not visual in nature. Vehicle does not provide any feeds. ¹⁶Honda FM Traffic traffic-flow data and incident-reporting coverage vary by market. ¹⁷The system is capable of recognizing standard verbal commands in English, French and Spanish.
