 $\mathrm{HS}^*$  = Feature is a component of the Honda  $\mathrm{Sensing}^{\circledast}$  suite of safety and driver assist features.

1. Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.

2. Accessory towing package required. Packages are available at an additional cost as a dealer-installed item. See your Owner's Manual for proper towing operation.

3. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

4. Feature uses rear door sensors only. Sensors are designed to detect if a rear door was opened and closed since the last time the vehicle was turned off. Sensors do not detect the presence of rearseat passengers or other items. Always check rear seats before exiting the vehicle.

5. For optimal tire wear and performance, the pressure should be checked regularly with a tire gauge. Do not rely solely on the monitor system.

6. Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle's built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.

- 7. Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.
- 8. HomeLink® can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.).
- 9. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.
- 10. Coverage varies by market.
- 11. Only available in certain areas. Includes a no-charge trial of three months.
- 12. Estimated fuel consumption based on Government of Canada's 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors use for comparison only. For more information on 5-cycle testing, visit http://vehicles.nrcan.gc.ca.
- 13. Subscription to HondaLink<sup>™</sup> services is required. HondaLink<sup>™</sup>-equipped vehicles come with complimentary time-limited trial subscriptions; fees, taxes and other charges will apply in order to continue subscription services upon trial expiry. The availability of certain GPS satellite and/or cellular networks is required for HondaLink<sup>™</sup> to operate properly. Service interruptions may occur and/ or vehicle system upgrades may be required if cellular network availability is compromised. Some restrictions may apply. For additional HondaLink<sup>™</sup> information, please visit www.honda.ca/hondalink and www.honda.ca/privacy.
